

Seda North America Receives Racine County Manufacturing Grant

June 6th, 2013 – Mount Pleasant, WI – Seda International Packaging Group was recognized by Racine County Economic Development Corporation and awarded the 2013 Racine County Manufacturing Grant. Seda was chosen based on their new green field manufacturing facility based in Mt. Pleasant, WI. The Manufacturing Renewal Grant Program will allow qualifying Racine County manufacturing businesses to receive monetary grants used for training or consulting services designed to support their Racine County operations. This will in turn help Racine companies continue to retain or provide jobs for Racine County residents. Seda will use their newly awarded grant to fund research studies, in particular Potential Customer Assessments. The grant program is a welcome assistance to Seda since they are not only new to the Racine area, but also to North America as a market.

For more information on the complete line of Seda innovative and business building packaging solutions, please go to www.sedapackaging.com and or call 262 417 1600.
